Regional Club Charter Registration / Application Form Process

Washington Youth Soccer and the Regional Club Subcommittee appreciate your interest in becoming a chartered Regional Club.

As the governing body of soccer here in our state, we share the responsibility with our member organizations for both developing and governing the game. Modernizing and running the game effectively will create the overall framework for the game to prosper. In the new Washington Youth Soccer organization structure, the Washington Youth Soccer staff will work together with our Board of Directors Soccer Operations Committee and their subcommittees to improve our infrastructure, our management practices at all levels, our competitive programs, and most importantly our development programs.

To enable this improvement, Washington Youth Soccer has introduced the Regional Club Charter program. This establishes standards for clubs serving the regional level players and coaches, and better enables the introduction of coach and player development programs. Combined with the Regional Club Subcommittee, it also creates a community that works together to drive the innovation of our game.

As you prepare your application, please consider the following:

- 1) There will be no more than one Regional Club per Association (with one exception from the grandfathered PDL clubs).
- 2) To qualify for a new Regional Club, an association must have greater than 4000 registered players, or be geographically isolated (greater than 60 miles from any neighbouring Regional Club).
- 3) The application process is used to evaluate the club on three dimensions; organizational, technical, and performance.
- 4) The performance threshold is based on points garnered by the club during state cups; the minimum requirement is 25.
- 5) The application process is open year round; however, final approval may be delayed pending state cup competitions if a club doesn't have a competitive history, or has not yet achieved the minimum requirement of 25 points.
- 6) Following review of the application materials, the process will include an interview with organizational and technical leadership.

We look forward to reviewing your submission and providing feedback.
